COMMITTEE

The Standing Administration of Justice Committee will meet today at 10.00 a.m. in Committee Room No. 2 to consider the following Bill:—

Bill 101, An Act to control the Storage and Supply of personal Information for rating Purposes. *Mr. Clement.*

NOTICE PAPER

QUESTION TABLED ON OCTOBER 2, 1973

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Special Fund were invested in the purchase of the land in question.

Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

31. *Mr. Young*—Enquiry of the Ministry—Will the Minister of Agriculture table: 1. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by Ontario Pounds to Research facilities registered under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b), since the inception of The Animals for Research Act to date. 2. The nature of all procedures used and the level of pain inflicted on animals, supplied by persons operating or

employed by Ontario Pounds, including Pounds operated by any Humane Society, in connection with research or teaching projects conducted at registered Research facilities since the inception of The Animals for Research Act, to date, according to records required to be filed under said Act, Section 21, subsection (3). 3. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by licenced Supply facilities to registered Research facilities under The Animals for Research Act; the names of the operators of those Supply facilities who have supplied live and dead cats and dogs or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received these animals; according to records required by O. The nature of all procedures and the pain level inflicted on animals, supplied by persons operating registered Supply facilities, in connection with research and teaching projects conducted at registered Research facilities, since the inception of The Animals for Research Act to date, according to records required to be filed under said Act, Section 21, subsection (3).

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established ("... to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.
33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called

and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. (c) To whom was the contract let. (d) Were tenders called

and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

PRIVATE MEMBERS NOTICE OF MOTION TABLED ON OCTOBER 15, 1973

8. *Mr. Davison*—Resolution—That in the opinion of this House in view of the serious effects on pensioners of the recent alarming increases in food prices, shelter costs and other basic necessities and the failure of the federal government to provide an adequate income for senior citizens, the Ontario government should immediately provide a supplement for old age pensioners; that the supplement should be sufficient to ensure pensioners a minimum income of \$200 from all sources plus whatever cost of living increases are added to the basic federal Old Age Pension and Supplement after September 1, 1973; further that in addition, until the federal government reduces the age for receiving the Old Age Pension, the province should extend the above minimum income to all residents between the ages of 60 and 64; and that the provincial supplement should be fully escalated to compensate for increases in the cost of living.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. (c) To whom was the contract let. (d) Were tenders called

and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

NOTICE PAPER

PRIVATE MEMBERS' NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as "endangered" in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.
2. *Mr. Bullbrook*—Resolution—That in the opinion of this House, the Ministry of Health should amend the Health Insurance Act, 1972, to provide dental services for children six years of age and under.
4. Withdrawn.
6. *Mr. Deacon*—Resolution—That the Ministry of the Solicitor General, upon the coming into force of Bill 122, an Act to Amend the Moosonee Development Area Board Act, should amend the letters patent of the Board of Governors of the Moosonee Education Centre so to strike out those three members nominated by the Ministry of Education and Ministry of Community and Social Services and to provide for five members to be chosen by the Moosonee Development Area Board.
7. *Mr. Singer*—Resolution—That a Public Inquiry be held immediately into all aspects of policy and management practices of Ontario Housing Corporation.
8. *Mr. Davison*—Resolution—That in the opinion of this House in view of the serious effects on pensioners of the recent alarming increases in food prices, shelter costs and other basic necessities and the failure of the federal government to provide an adequate income for senior citizens, the Ontario government should immediately provide a supplement for old age pensioners; that the supplement should be sufficient to ensure pensioners a minimum income of \$200 from all sources plus whatever cost of living increases are added to the basic federal Old Age Pension and Supplement after September 1, 1973; further that in addition, until the federal government reduces the age for receiving the Old Age Pension, the province should extend the above minimum income to all residents between the ages of 60 and 64; and that the provincial supplement should be fully escalated to compensate for increases in the cost of living.
9. *Mr. Germa*—Resolution—That in the opinion of this House the Ontario Government is forcing municipal taxpayers and municipal employees to subsidize the province of Ontario through the legislative stipulations governing the investment of the surplus funds of the Ontario Municipal Employees Retirement Fund for the years 1963 to 1969 and that this injustice should be corrected. And further that the Ontario Municipal

Employees Retirement System Act should be amended to permit the surplus funds to be invested in municipal debentures as well as provincial debentures in order to broaden the sources of credit available to the municipalities and thus reduce their borrowing costs.

10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.

Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund,

or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. 4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

“During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. This Committee’s purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved.”

Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

NOTICE PAPER

GOVERNMENT NOTICE OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS' NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as "endangered" in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.

And further that the Ontario Municipal Employees Retirement System Act should be amended to permit the surplus funds to be invested in municipal debentures as well as provincial debentures in order to broaden the sources of credit available to the municipalities and thus reduce their borrowing costs.
 10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.
 11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

“but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee.”
 12. *Mr. Davison*—Reasoned Amendment—That the motion for second reading of Bill 196 entitled, “An Act to Provide Assistance to Ontario Pensioners” be amended by deleting all the words after “that” and substituting the words, “this Bill be not now read a second time but be referred to the Government so that it may consider bringing back the Bill with changes which will more adequately meet the needs of our senior citizens by the following changes, namely:— (a) that provision be made for payment of a provincial income supplement which will ensure that all old age pensioners resident in the province are guaranteed a minimum income of \$200 a month from all sources, plus whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

(c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract

was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund,

including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund,

including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established ("... to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund,

including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

(c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. NOTICE PAPER

GOVERNMENT NOTICE OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS' NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as "endangered" in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.
2. *Mr. Bullbrook*—Resolution—That in the opinion of this House, the Ministry of Health should amend the Health Insurance Act, 1972, to provide dental services for children six years of age and under.
6. *Mr. Deacon*—Resolution—That the Ministry of Treasury, Economics and Intergovernmental Affairs, upon the coming into force of Bill 122, an Act to Amend the Moosonee Development Area Board Act, should amend the letters patent of the Board of Governors of the Moosonee Education Centre so to strike out those three members nominated by

the Ministry of Education and Ministry of Community and Social Services and to provide for five members to be chosen by the Moosonee Development Area Board.

7. *Mr. Singer*—Resolution—That a Public Inquiry be held immediately into all aspects of policy and management practices of Ontario Housing Corporation.
9. *Mr. Germa*—Resolution—That in the opinion of this House the Ontario Government is forcing municipal taxpayers and municipal employees to subsidize the province of Ontario through the legislative stipulations governing the investment of the surplus funds of the Ontario Municipal Employees Retirement Fund for the years 1963 to 1969 and that this injustice should be corrected. And further that the Ontario Municipal Employees Retirement System Act should be amended to permit the surplus funds to be invested in municipal debentures as well as provincial debentures in order to broaden the sources of credit available to the municipalities and thus reduce their borrowing costs.
10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.
11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

“but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee.”
12. *Mr. Davison*—Reasoned Amendment—That the motion for second reading of Bill 196 entitled, “An Act to Provide Assistance to Ontario Pensioners” be amended by deleting all the words after “that” and substituting the words, “this Bill be not now read a second time but be referred to the Government so that it may consider bringing back the Bill with changes which will more adequately meet the needs of our senior citizens by the following changes, namely:— (a) that provision be made for payment of a provincial income supplement which will ensure that all old age pensioners resident in the province are guaranteed a minimum income of \$200 a month from all sources, plus whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all

residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24' on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund,

(c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.

NOTICE PAPER

GOVERNMENT NOTICE OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS' NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as "endangered" in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.
2. *Mr. Bullbrook*—Resolution—That in the opinion of this House, the Ministry of Health should amend the Health Insurance Act, 1972, to provide dental services for children six years of age and under.
6. *Mr. Deacon*—Resolution—That the Ministry of Treasury, Economics and Intergovernmental Affairs, upon the coming into force of Bill 122, an Act to Amend the Moosonee Development Area Board Act, should amend the letters patent of the Board of Governors of the Moosonee Education Centre so to strike out those three members nominated by

7. *Mr. Singer*—Resolution—That a Public Inquiry be held immediately into all aspects of policy and management practices of Ontario Housing Corporation.
9. *Mr. Germa*—Resolution—That in the opinion of this House the Ontario Government is forcing municipal taxpayers and municipal employees to subsidize the province of Ontario through the legislative stipulations governing the investment of the surplus funds of the Ontario Municipal Employees Retirement Fund for the years 1963 to 1969 and that this injustice should be corrected. And further that the Ontario Municipal Employees Retirement System Act should be amended to permit the surplus funds to be invested in municipal debentures as well as provincial debentures in order to broaden the sources of credit available to the municipalities and thus reduce their borrowing costs.
10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.
11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

“but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee.”
12. *Mr. Davison*—Reasoned Amendment—That the motion for second reading of Bill 196 entitled, “An Act to Provide Assistance to Ontario Pensioners” be amended by deleting all the words after “that” and substituting the words, “this Bill be not now read a second time but be referred to the Government so that it may consider bringing back the Bill with changes which will more adequately meet the needs of our senior citizens by the following changes, namely:— (a) that provision be made for payment of a provincial income supplement which will ensure that all old age pensioners resident in the province are guaranteed a minimum income of \$200 a month from all sources, plus whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all

residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. Providing for a payment in each year beginning January 1st, 1974, of \$1.00 for each \$2.00 payment of a guaranteed income supplement under the Old Age Security Act of Canada received by each pensioner resident in Ontario who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada. Payments to be made by the province on a monthly basis up to a maximum of 50% of the guaranteed income supplement under the Old Age Security Act of Canada. (Present Maximum Federal Supplement \$73.86); 2. Providing for extension to the Ontario Health Insurance Program to cover the costs of prescribed drugs, hearing aid devices, dental services, dental prosthetics, and ophthalmic appliances to all those in receipt of premium free health insurance because of age, and to all recipients under the Family Benefit’s Act. 3. Providing increased allowances under the Family Benefit’s Act to provide levels of payments to the disabled and those covered under old age assistance (males and females 60 to 65 years of age) equal to those received by the elderly who qualify under the Old Age Security Act and its supplement program and under Section (1) above.
14. *Mr. Hodgson (Victoria-Haliburton)*—Resolution—That in the opinion of this House the Routine Proceeding “Oral Questions” should be formalized to limit, at its beginning, the Leader of the Official Opposition to the first two Primary Questions asked; the right to ask the next Primary Question to the Leader of the next largest officially recognized party. That the House having conferred this privilege upon party leadership, Mr. Speaker then recognize the right of any Member of the Legislature who catches his eye, to place a question to the Ministry. That Supplementary Questions based on any Primary Question be limited to not more than three in number and the privilege be open to any member who catches Mr. Speaker’s eye. That answers to previous questions be considered to be as important as new questions and be given to the House by the responsible Ministers immediately following the calling of “Oral Questions”, and before the questions placed by the Leader of the Opposition. The number of such answers given in one day to be at the discretion of Mr. Speaker, further that such Ministers use discretion in such answers by rule of thumb measurement, that if the answer exceeds 1½ typewritten pages the answering Minister should give such answer in the Routine Proceeding “Statements by the Ministry”.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments

allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (“ . . . to meet the loss arising from any disaster or other circumstance”) would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of

these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of

these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. How many of these were secured from Humane Societies. 3. How many were secured from public pounds. 4. How many were secured from stock grown for the specific purpose of research.
35. *Mr. Germa*—Enquiry of the Ministry—1. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell automobile, truck, trailer and snowmobile registration plates. 2. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell operators, chauffeurs and motorcycle drivers licence. 3. What is the dollar value of commissions paid to each agency or person, derived from the sale of 1 and/or 2 above, for the 1972 licence year and first six months of 1973. 4. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of

these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

(c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. NOTICE PAPER

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

“During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee’s purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved.”

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS’ NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as “endangered” in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.

7. *Mr. Singer*—Resolution—That a Public Inquiry be held immediately into all aspects of policy and management practices of Ontario Housing Corporation.
10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.
11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

“but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee.”
12. *Mr. Davison*—Reasoned Amendment—That the motion for second reading of Bill 196 entitled, “An Act to Provide Assistance to Ontario Pensioners” be amended by deleting all the words after “that” and substituting the words, “this Bill be not now read a second time but be referred to the Government so that it may consider bringing back the Bill with changes which will more adequately meet the needs of our senior citizens by the following changes, namely:— (a) that provision be made for payment of a provincial income supplement which will ensure that all old age pensioners resident in the province are guaranteed a minimum income of \$200 a month from all sources, plus whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.
13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. 14. *Mr. Hodgson* (Victoria-Haliburton)—Resolution—That in the opinion of this House the Routine Proceeding "Oral Questions" should be formalized to limit, at its beginning, the Leader of the Official Opposition to the first two Primary Questions asked; the right to ask the next Primary Question to the Leader of the next largest officially recognized party. That the House having conferred this privilege upon party leadership, Mr. Speaker then recognize the right of any Member of the Legislature who catches his eye, to place a question to the Ministry. That Supplementary Questions based on any Primary Question be limited to not more than three in number and the privilege be open to any member who catches Mr. Speaker's eye. That answers to previous questions be considered to be as important as new questions and be given to the House by the responsible Ministers immediately following the calling of "Oral Questions", and before the questions placed by the Leader of the Opposition. The number of such answers given in one day to be at the discretion of Mr. Speaker, further that such Ministers use discretion in such answers by rule of thumb measurement, that if the answer exceeds 1½ typewritten pages the answering Minister should give such answer in the Routine Proceeding "Statements by the Ministry".

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971

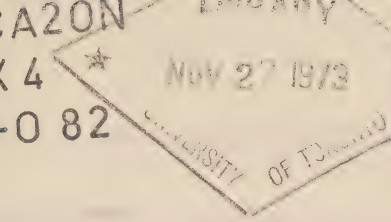

Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

(c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. 13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. NOTICE PAPER

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. NOTICE PAPER

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

“During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee’s purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved.”

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS’ NOTICES OF MOTION

13. *Mr. Nixon (Brant)*—Reasoned amendment to motion for Second Reading of Bill 196—That all the words in the motion after the word “That” be struck out and the following substituted therefore:—“the Bill be not now read a second time so that the Minister may, as well as providing for a payment of \$50.00 to be made to each pensioner resident in Ontario in the year 1973 who is in receipt of a guaranteed income supplement under the Old Age Security Act of Canada, also give, further consideration to the advisability of—1. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

(g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. NOTICE PAPER

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS' NOTICES OF MOTION

1. *Mrs. Scrivener*—Resolution—That in the opinion of this House, the Ministry of Natural Resources should enact regulations under The Endangered Species Act, 1971, outlining in specific detail and listing species of flora and fauna, such as orchids, trilliums, loons, falcons, whales and panthers, which are considered to be endangered in the Province of Ontario; further, that the said Act should be amended to prohibit the sale of any specie described as "endangered" in Canada or throughout the world, or any product or by-product emanating from such specie; also, that this House recommend to the Government of Canada that importation be prohibited of endangered species and products of endangered species into Canada without the permission of the federal Minister.
2. *Mr. Bullbrook*—Resolution—That in the opinion of this House, the Ministry of Health should amend the Health Insurance Act, 1972, to provide dental services for children six years of age and under.
6. *Mr. Deacon*—Resolution—That the Ministry of Treasury, Economics and Intergovernmental Affairs, upon the coming into force of Bill 122, an Act to Amend the Moosonee Development Area Board Act, should amend the letters patent of the Board of Governors of the Moosonee Education Centre so to strike out those three members nominated by the Ministry of Education and Ministry of Community and Social Services and to provide for five members to be chosen by the Moosonee Development Area Board.

7. *Mr. Singer*—Resolution—That a Public Inquiry be held immediately into all aspects of policy and management practices of Ontario Housing Corporation.
10. *Mr. Lewis*—Resolution—That the House resolve itself into committee of the whole for the purpose of enquiring into and adjudging whether all or any of the matters referred to on pages 10 and 11 of the Report of the Select Committee on the Hydro Electric Power Commission of Ontario New Head Office Building are contempts under The Legislative Assembly Act. If they are judged contempts, The Legislature must then take action.
11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

“but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee.”
12. *Mr. Davison*—Reasoned Amendment—That the motion for second reading of Bill 196 entitled, “An Act to Provide Assistance to Ontario Pensioners” be amended by deleting all the words after “that” and substituting the words, “this Bill be not now read a second time but be referred to the Government so that it may consider bringing back the Bill with changes which will more adequately meet the needs of our senior citizens by the following changes, namely:— (a) that provision be made for payment of a provincial income supplement which will ensure that all old age pensioners resident in the province are guaranteed a minimum income of \$200 a month from all sources, plus whatever cost of living increases are added to the basic federal Old Age Pension and Guaranteed Income Supplement after September 1, 1973; (b) that until the federal government reduces the age for receiving the Old Age Pension, provision be made for the provincial government to extend the above minimum income guarantee to all residents of Ontario between the ages of 60 and 64; and (c) that the provincial payments provided be fully escalated to compensate for future increases in the cost of living.
14. *Mr. Hodgson* (Victoria-Haliburton)—Resolution—That in the opinion of this House the Routine Proceeding “Oral Questions” should be formalized to limit, at its beginning, the Leader of the Official Opposition to the first two Primary Questions asked; the right to ask the next Primary Question to the Leader of the next largest officially recognized party. That the House having conferred this privilege upon party leadership, Mr. Speaker then recognize the right of any Member of the Legislature who catches his eye, to place a question to the Ministry. That Supplementary Questions based on any Primary Question be limited to not more than three in number and the privilege be open to any member who catches Mr. Speaker’s eye. That answers to previous questions be considered to be as important as new questions and be given to the House by the responsible Ministers immediately following the calling of “Oral

Questions", and before the questions placed by the Leader of the Opposition. The number of such answers given in one day to be at the discretion of Mr. Speaker, further that such Ministers use discretion in such answers by rule of thumb measurement, that if the answer exceeds 1½ typewritten pages the answering Minister should give such answer in the Routine Proceeding "Statements by the Ministry".

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order

Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order

Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. 31. *Mr. Young*—Enquiry of the Ministry—Will the Minister of Agriculture table: 1. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by Ontario Pounds to Research facilities registered under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b), since the inception of The Animals for Research Act to date. 2. The nature of all procedures used and the level of pain inflicted on animals, supplied by persons operating or employed by Ontario Pounds, including Pounds operated by any Humane Society, in connection with research or teaching projects conducted at registered Research facilities since the inception of The Animals for Research Act, to date, according to records required to be filed under said Act, Section 21, subsection (3). 3. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by licenced Supply facilities to registered Research facilities under The Animals for Research Act; the names of the operators of those Supply facilities who have supplied live and dead cats and dogs or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received these animals; according to records required by O. The nature of all procedures and the pain level inflicted on animals, supplied by persons operating registered Supply facilities, in connection with research and teaching projects conducted at registered Research facilities, since the inception of The Animals for Research Act to date, according to records required to be filed under said Act, Section 21, subsection (3).
32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971

Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. How many of these were secured from Humane Societies. 3. How many were secured from public pounds. 4. How many were secured from stock grown for the specific purpose of research.
35. *Mr. Germa*—Enquiry of the Ministry—1. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell automobile, truck, trailer and snowmobile registration plates. 2. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell operators, chauffeurs and motorcycle drivers licence. 3. What is the dollar value of commissions paid to each agency or person, derived from the sale of 1 and/or 2 above, for the 1972 licence year and first six months of 1973. 4. What is the schedule of commissions for the sale of items listed above.
36. *Mr. Spence*—Enquiry of the Ministry—How many summer homes have been purchased by the Government in Rondeau Provincial Park, and what is the total expenditure involved to date.

31. *Mr. Young*—Enquiry of the Ministry—Will the Minister of Agriculture table: 1. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by Ontario Pounds to Research facilities registered under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b), since the inception of The Animals for Research Act to date. 2. The nature of all procedures used and the level of pain inflicted on animals, supplied by persons operating or employed by Ontario Pounds, including Pounds operated by any Humane Society, in connection with research or teaching projects conducted at registered Research facilities since the inception of The Animals for Research Act, to date, according to records required to be filed under said Act, Section 21, subsection (3). 3. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by licenced Supply facilities to registered Research facilities under The Animals for Research Act; the names of the operators of those Supply facilities who have supplied live and dead cats and dogs or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received these animals; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b) since the inception of The Animals for Research Act to date. 4. The nature of all procedures and the pain level inflicted on animals, supplied by persons operating registered Supply facilities, in connection with research and teaching projects conducted at registered Research facilities, since the inception of The Animals for Research Act to date, according to records required to be filed under said Act, Section 21, subsection (3).
32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (“ . . . to meet the loss arising from any disaster or other circumstance”) would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971

Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
34. *Mr. Burr*—Enquiry of the Ministry—Since the passage of Bill 194 in 1971:— 1. How many animals have been used in Ontario research labs in each of the past five years. 2. How many of these were secured from Humane Societies. 3. How many were secured from public pounds. 4. How many were secured from stock grown for the specific purpose of research.
35. *Mr. Germa*—Enquiry of the Ministry—1. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell automobile, truck, trailer and snowmobile registration plates. 2. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell operators, chauffeurs and motorcycle drivers licence. 3. What is the dollar value of commissions paid to each agency or person, derived from the sale of 1 and/or 2 above, for the 1972 licence year and first six months of 1973. 4. What is the schedule of commissions for the sale of items listed above.

NOTICE PAPER

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

6. *Mr. Davis*—Resolution—That, for the purpose of redistribution of Ontario Electoral Districts, a Commission of three shall be appointed by the Lieutenant Governor in Council; one Commissioner to be designated as Chairman.

That, a member of the Commission may be paid such per diem allowance as may be fixed by the Lieutenant Governor in Council, and is entitled to reasonable travelling and living expenses incurred by him while absent from his ordinary place of residence in the course of his duties as a member of the Commission; the costs of the Commission to be paid out of the Consolidated Revenue Fund.

That, the Commission shall employ such staff as it considers necessary and, subject to the approval of the Management Board of Cabinet, may fix the salaries and expenses of such persons.

That, the Commission shall determine the population of Ontario as nearly as may be ascertained, based on the census of population taken by Statistics Canada in the year 1971, and shall determine the number of Electoral Districts into which Ontario is to be divided, which number shall not be less than the present 117 and not more than 125, provided that the total number of Electoral Districts in that part of Ontario lying North and West of the Southern Boundaries of the present Electoral Districts of Algoma-Manitoulin, Sudbury East and Nipissing shall not be less than 15, but nothing in this paragraph shall preclude the Commission from establishing boundaries of Electoral Districts that extend across or beyond Southern Boundaries of the present Electoral Districts mentioned.

That, for the purpose of the distribution the Commission shall take into account (a) community or diversity of interests; (b) means of communication; (c) topographical features; (d) population trends; (e) the varying conditions and requirements regarding representation as between urban and rural Electoral Districts; (f) existing boundaries of municipalities or wards thereof; (g) the existing and traditional boundaries of Electoral Districts and (h) special geographic considerations, including in particular the sparsity, density or relative rate of growth of population in the various regions of the Province, the accessibility of such regions or the size or shape thereof; and subject thereto the population quota for each Electoral District shall be based on the average population, but in determining such quota the Commission shall not depart from the average population to a greater extent than 25% more or less, except where in the opinion of the Commission any of the above circumstances exist to such an extent that require a greater departure, in which case the Commission may depart from the average population to such greater extent as it considers necessary or desirable.

That, the Commission, before reporting, shall prepare a map with a description of the boundaries of each proposed Electoral District or group of Electoral Districts, and shall invite public attention to the map by publishing a notice in the Ontario Gazette, and may publish the map or parts thereof in newspapers having general circulation in the proposed Electoral Districts; the notice in the Ontario Gazette shall provide for the lodging of objections and suggestions in writing with the Commission before such date as the notice shall provide.

That, the Commission shall forward to the Speaker its Report upon the Redistribution of Ontario into Electoral Districts and the number of persons residing in each proposed District as nearly as can be ascertained, and the Speaker shall cause the Report to be laid before the Assembly if it is in Session, or if not, the next ensuing Session.

That, if within a period of fifteen days after the Report is laid before the Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sittings days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and, thereafter the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within thirty days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

That, where no objection has been filed with the Clerk in the manner provided, or the Report has been returned to the Speaker, either with or

without amendment, the Commission shall prepare a draft Representation Act in the form of a Bill, repealing The Representation Act and embodying its Report, and the draft Bill shall be presented to the Speaker forthwith and the Speaker shall transmit it to the appropriate Minister.

GOVERNMENT NOTICES OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

6. *Mr. Davis*—Resolution—That, for the purpose of redistribution of Ontario Electoral Districts, a Commission of three shall be appointed by the Lieutenant Governor in Council; one Commissioner to be designated as Chairman.

That, a member of the Commission may be paid such per diem allowance as may be fixed by the Lieutenant Governor in Council, and is entitled to reasonable travelling and living expenses incurred by him while absent from his ordinary place of residence in the course of his duties as a member of the Commission; the costs of the Commission to be paid out of the Consolidated Revenue Fund.

That, the Commission shall employ such staff as it considers necessary and, subject to the approval of the Management Board of Cabinet, may fix the salaries and expenses of such persons.

That, the Commission shall determine the population of Ontario as nearly as may be ascertained, based on the census of population taken by Statistics Canada in the year 1971, and shall determine the number of Electoral Districts into which Ontario is to be divided, which number shall not be less than the present 117 and not more than 125, provided that the total number of Electoral Districts in that part of Ontario lying North and West of the Southern Boundaries of the present Electoral Districts of Algoma-Manitoulin, Sudbury East and Nipissing shall not be less than 15, but nothing in this paragraph shall preclude the Commission from establishing boundaries of Electoral Districts that extend across or beyond Southern Boundaries of the present Electoral Districts mentioned.

That, for the purpose of the distribution the Commission shall take into account (a) community or diversity of interests; (b) means of communication; (c) topographical features; (d) population trends; (e) the varying conditions and requirements regarding representation as between urban and rural Electoral Districts; (f) existing boundaries of municipalities or wards thereof; (g) the existing and traditional boundaries of Electoral Districts and (h) special geographic considerations, including in particular the sparsity, density or relative rate of growth of population in the various regions of the Province, the accessibility of such regions or the size or shape thereof; and subject thereto the population quota for each Electoral District shall be based on the average population, but in determining such quota the Commission shall not depart from the average population to a greater extent than 25% more or less, except where in the opinion of the Commission any of the above circumstances exist to such an extent that require a greater departure, in which case the Commission may depart from the average population to such greater extent as it considers necessary or desirable.

That, the Commission, before reporting, shall prepare a map with a description of the boundaries of each proposed Electoral District or group of Electoral Districts, and shall invite public attention to the map by publishing a notice in the Ontario Gazette, and may publish the map or parts thereof in newspapers having general circulation in the proposed Electoral Districts; the notice in the Ontario Gazette shall provide for the lodging of objections and suggestions in writing with the Commission before such date as the notice shall provide.

That, the Commission shall forward to the Speaker its Report upon the Redistribution of Ontario into Electoral Districts and the number of persons residing in each proposed District as nearly as can be ascertained, and the Speaker shall cause the Report to be laid before the Assembly if it is in Session, or if not, the next ensuing Session.

That, if within a period of fifteen days after the Report is laid before the Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sittings days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and, thereafter the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within thirty days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

That, where no objection has been filed with the Clerk in the manner provided, or the Report has been returned to the Speaker, either with or

without amendment, the Commission shall prepare a draft Representation Act in the form of a Bill, repealing The Representation Act and embodying its Report, and the draft Bill shall be presented to the Speaker forthwith and the Speaker shall transmit it to the appropriate Minister.

Will the Premier also provide similar information relating to the provision of accommodation for the Ontario Educational Television Authority.
26. *Mr. Bounsall*—Enquiry of the Ministry—Would the Minister of Education provide the names, positions and educational qualifications of those persons he referred to in the Question Period of June 12th, 1973, who hold the view that the most propitious time to embark on French language education is not at the kindergarten and grade one level.

In addition, at what level of education or age do each of them suggest is the best and most appropriate starting time for students wishing to become fully bilingual or fully French in the normal course of their education.

31. *Mr. Young*—Enquiry of the Ministry—Will the Minister of Agriculture table: 1. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by Ontario Pounds to Research facilities registered under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b), since the inception of The Animals for Research Act to date. 2. 32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971

Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.

33. *Mr. Singer*—Enquiry of the Ministry—1. What are the provisions of the recent contract let by Ontario Hydro for the construction of a dam in the Arnprior area. Without limiting the comprehensiveness of the answer, (a) On what date was the contract awarded and in what amount. (b) Is the contract for the whole project or only a portion of the project. (c) To whom was the contract let. (d) Were tenders called and if so, from whom were bids received and in what amounts. (e) If no tender call was issued, how was the contractor to whom the contract was let, selected. What other contractors, if any, were considered and what proposals or bids, if any, did they make. (f) Who are the Officers and Directors of the Contractor to whom the contract was let. (g) Before the contract was let, did Ontario Hydro receive advice on the advisability of the project from a private consulting firm and, if so, what is the name of the firm, who are the partners or Officers and Directors. 2. Will the Ministry table the contract in question and, if such a report exists, will the Ministry table the report of the consultants.
35. *Mr. Germa*—Enquiry of the Ministry—1. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell automobile, truck, trailer and snowmobile registration plates. 2. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell operators, chauffeurs and motorcycle drivers licence. 3. What is the dollar value of commissions paid to each agency or person, derived from the sale of 1 and/or 2 above, for the 1972 licence year and first six months of 1973. 4. What is the schedule of commissions for the sale of items listed above.
36. *Mr. Spence*—Enquiry of the Ministry—How many summer homes have been purchased by the Government in Rondeau Provincial Park, and what is the total expenditure involved to date.
37. *Mr. Cassidy*—Enquiry of the Ministry—1. (a) Who are the Executive Assistants to each of the Provincial Secretaries. (b) (i) In each case, what is his or her current monthly (gross and take-home) salary and expense allowances paid by the province. (c) (i) Which of these rent or own apartments or homes in Toronto. (ii) What allowance, if any, is paid toward this cost in each case. 2. (a) In the case of the Provincial Secretaries from outside the immediate Toronto area, which Secretaries

maintain constituency political offices or have their Executive Assistants frequently present in their home area. (b) What are the names of the Executive Assistants involved. (c) What duties in Toronto and in the home area does each Assistant have. 3. (a) Since the appointment of each Executive Assistant to a non-Toronto area Provincial Secretary, how many trips, and by whom, were made to Secretaries' home areas at public expense. 3. (b) What were the nature of these trips. (c) What were the total of all travelling and living expenses paid to each: (i) from public funds; (ii) from other sources, if any, and what were those sources. (d) How many working days and how many weekends were spent in the home area in each case. (e) Were Provincial Government aircraft used in any case, and, if so, when and why, and what were the costs involved. 4. What steps has the Government taken to ensure that the positions and influence of Executive Assistants or other Ministerial Assistants are not used for personal financial gain in cases where the assistant is in personal financial difficulty. Are or have any of the Executive Assistants to any Minister been in personal financial difficulty, and if so what action has been taken by the Government.

NOTICE PAPER

GOVERNMENT NOTICE OF MOTION

4. *Mr. Winkler*—Resolution—That the House having debated for some time the Report of the Select Committee on the Hydro Electric Power Commission of Ontario—New Head Office Building, notes the following paragraph on page 10:—

"During the course of the hearing there was a singular lack of respect shown in certain instances for the Legislative Assembly of the Province of Ontario. In our opinion, these matters may well be matters which could be cited as contempts. This Committee's purpose in noting the conduct of the parties hereinafter mentioned is to impress upon members of the business community, the legal profession, and citizens, a sense of greater obligation and duty to a Select Committee of the Legislature. This Committee recommends that no action be taken by the Legislature, but rather treats the recital of such conduct herein as a sufficient consequence to those involved."

and the House accordingly concurs in the recommendation of the Committee.

PRIVATE MEMBERS' NOTICES OF MOTION

(Private Members' Notices of Motion, other than those directly related to Government Orders, will be published on the Notice Paper each Monday.)

11. *Mr. Gaunt*—Proposed amendment to Government Motion No. 4—That the motion be amended by adding thereto the following:—

"but having regard to the reactions of this Assembly to the conduct of John Cronyn and Donald Smith, that the matter of their actions be referred to the Standing Procedural Affairs Committee."

QUESTIONS

1. *Mr. Bullbrook*—Enquiry of the Ministry—What are the names of the nursing home operators who have been granted approval for construction of nursing home beds since January 1, 1972. How many beds is each operator constructing or has each operator constructed. Where are the beds located and when were the applications for construction approved in each case.
9. *Mr. Reid*—Enquiry of the Ministry—Will the Ministry table the log books for the last two years of the government aircraft based at Island Airport, Toronto. Will the Ministry indicate the reasons for the flights of non-civil

servants and the Cabinet ministers and their families inside and outside of the Province.

18. *Mr. Shulman*—Enquiry of the Ministry—1. On how many occasions did each Minister use government airplanes in 1972. 2. How many of these trips were outside of the Province of Ontario. 3. Where did the Minister go. 4. On how many of these trips were members of the Minister's family taken. 5. How many of these trips included fishing as an activity.
21. *Mr. Deacon*—Enquiry of the Ministry—Will the Premier provide copies of all the proposals for the construction and provision of accommodation of the Ontario Institute for Studies in Education as well as copies of the letters or advertisements which requested submission of proposals. Will the Premier also provide similar information relating to the provision of accommodation for the Ontario Educational Television Authority.
26. *Mr. Bounsall*—Enquiry of the Ministry—Would the Minister of Education provide the names, positions and educational qualifications of those persons he referred to in the Question Period of June 12th, 1973, who hold the view that the most propitious time to embark on French language education is not at the kindergarten and grade one level. In addition, at what level of education or age do each of them suggest is the best and most appropriate starting time for students wishing to become fully bilingual or fully French in the normal course of their education.
31. *Mr. Young*—Enquiry of the Ministry—Will the Minister of Agriculture table: 1. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by Ontario Pounds to Research facilities registered under The Animals for Research Act, 1968-69; the names of those persons operating, or employed by, Ontario Pounds including Pounds operated by any Humane Society who have supplied live or dead cats, dogs and/or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received the animals so tabled; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b), since the inception of The Animals for Research Act to date. 2. The nature of all procedures used and the level of pain inflicted on animals, supplied by persons operating or employed by Ontario Pounds, including Pounds operated by any Humane Society, in connection with research or teaching projects conducted at registered Research facilities since the inception of The Animals for Research Act, to date, according to records required to be filed under said Act, Section 21, subsection (3). 3. The total number of live and dead (a) cats; (b) dogs; (c) other animals, supplied by licenced Supply facilities to registered Research facilities under The Animals for Research Act; the names of the operators of those Supply facilities who have supplied live and dead cats and dogs or other animals to registered Research facilities; and the names of the operators of the registered Research facilities who received these animals; according to records required by O. Reg. 139/71, Section 12, subsections 2 (e) and 3 (b) since the inception of The Animals for Research Act to date. 4. The nature of

all procedures and the pain level inflicted on animals, supplied by persons operating registered Supply facilities, in connection with research and teaching projects conducted at registered Research facilities, since the inception of The Animals for Research Act to date, according to records required to be filed under said Act, Section 21, subsection (3).

32. *Mr. Nixon (Brant)*—Enquiry of the Ministry—1. Using the definitions of the various Funds as used in the answers to Question 24 on the Order Paper tabled on June 22, 1973, is it the opinion of the Workmen's Compensation Board's legal counsel that (a) The monies of the Reserve Fund and the Lump Sum Fund may be invested only in investments allowed in the Trustee Act and that, therefore, an investment in land is not permitted. (b) That the Superannuation Fund may not be invested in one parcel of real estate which exceeds in value 2% of the total assets of the Fund, that is, which exceeds \$608,596 at year end 1971. (c) Has the opinion of legal counsel been sought as to what the monies of the various Funds can properly be invested in. 2. Considering the purpose for which the Special Fund was established (" . . . to meet the loss arising from any disaster or other circumstance") would investment of a major portion of this fund in an illiquid investment such as land be contrary to the purpose of the Fund. 3. Is it the opinion of the Workmen's Compensation Board's accountants that the Board's 1971 Annual Statement shows that the Accident Fund, exclusive of the Reserve Fund and Special Fund, was not used to purchase the land for the Board's new headquarters costing \$6,389,600. 4. If the answer to question 3 is yes, is it not true that the land in question was purchased through the use of monies from one of the other funds, which use of these funds is either ill-advised, as in the case of the Special Fund, or not permitted as in the case of the Reserve Fund, Superannuation Fund or Lump Sum Fund. 5. Are the monies of the Accident Fund, including the Reserve and Special Funds, pooled for investment purposes. If so, is it possible for the Minister to assure the House that no monies of the Reserve Fund were invested in the purchase of the land in question.
35. *Mr. Germa*—Enquiry of the Ministry—1. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell automobile, truck, trailer and snowmobile registration plates. 2. Will the Ministry table the names and addresses of all Ontario outlets authorized to sell operators, chauffeurs and motorcycle drivers licence. 3. What is the dollar value of commissions paid to each agency or person, derived from the sale of 1 and/or 2 above, for the 1972 licence year and first six months of 1973. 4. What is the schedule of commissions for the sale of items listed above.
36. *Mr. Spence*—Enquiry of the Ministry—How many summer homes have been purchased by the Government in Rondeau Provincial Park, and what is the total expenditure involved to date.
37. *Mr. Cassidy*—Enquiry of the Ministry—1. (a) Who are the Executive Assistants to each of the Provincial Secretaries. (b) (i) In each case, what is his or her current monthly (gross and take-home) salary and expense

allowances paid by the province. (ii) Do any of these Executive Assistants receive additional remuneration or expenses apart from that paid by the province and, if so, how much and from what source. (c) (i) Which of these rent or own apartments or homes in Toronto. (ii) What allowance, if any, is paid toward this cost in each case. 2. (a) In the case of the Provincial Secretaries from outside the immediate Toronto area, which Secretaries maintain constituency political offices or have their Executive Assistants frequently present in their home area. (b) What are the names of the Executive Assistants involved. (c) What duties in Toronto and in the home area does each Assistant have. 3. (a) Since the appointment of each Executive Assistant to a non-Toronto area Provincial Secretary, how many trips, and by whom, were made to Secretaries' home areas at public expense. 3. (b) What were the nature of these trips. (c) What were the total of all travelling and living expenses paid to each: (i) from public funds; (ii) from other sources, if any, and what were those sources. (d) How many working days and how many weekends were spent in the home area in each case. (e) Were Provincial Government aircraft used in any case, and, if so, when and why, and what were the costs involved. 4. What steps has the Government taken to ensure that the positions and influence of Executive Assistants or other Ministerial Assistants are not used for personal financial gain in cases where the assistant is in personal financial difficulty. Are or have any of the Executive Assistants to any Minister been in personal financial difficulty, and if so what action has been taken by the Government.

38. *Mr. Stokes*—Enquiry of the Ministry—Would the Minister of Natural Resources provide the following information concerning land and mining rights subject to acreage tax under the Mining Act: 1. the number of acres of land subject to acreage tax in each of the Territorial Districts; 2. the number of acres on which mining rights only are subject to acreage tax in each of the Territorial Districts; 3. for each of the Territorial Districts, and measuring the size of holding in terms of the number of acres held, the names of the ten largest holders (corporate or individual) of land subject to acreage tax together with the number of acres in each of these holdings by geographic township or unsurveyed location; 4. for each of the Territorial Districts, and measuring the size of holding in terms of the number of acres held, the names of the ten largest holders (corporate or individual) of mining rights subject to acreage tax together with the number of acres in each of these holdings by geographic township or unsurveyed location.

NOTE: for the purpose of this question, the definitions of 'land' and 'mining rights' are the same as those used in the annual publication of acreage tax forfeitures in THE ONTARIO GAZETTE.
